

Telescoping Bottle Jacks

6-15 Ton Capacity

These jacks offer greater extended lifting capability.

JACKS

- Telescoping jacks offer all of the quality features and capabilities of the standard bottle jack line with a bonus. The super-long stroke of these jacks saves time and effort by eliminating the need to lift, crib, lift, etc. In most applications, the user can place the jack once and complete the lift.
- The 9015X offers very low clearance capability, making it the ideal choice for forklift maintenance or machine lifting.
- All jacks meet ASME B30.1 standards and carry the Power Team Marathon Lifetime Warranty.
- The taller 9006X, 9011X and 9013X all feature a unique beveled base that allows the jack to “follow” the load laterally as it is raised, greatly reducing side-loading of the piston.

ORDERING INFORMATION

See current price list for shipping weights.
