

Power Team Puller Sets

Convenient, portable puller sets that go where you do.

10 ton capacity Push-Puller® set

Contains three popular Power Team bar-type pullers in one versatile set, packed in a handy plastic storage case. Tools included permit damage-free pulling of gears, bearings, harmonic balancers, and other parts having tapped holes. Ideal for servicing off-road construction equipment and machinery.

No. 1180 – 10 ton Push-Puller® set, in plastic storage case. Wt., 11.4 kg.

Set No. 1180 consists of:

No. 927 – 10 Ton Push-Puller®; 213 mm reach, 54 mm to 184 mm spread. Comes with 171 mm puller legs, other leg sizes are available separately (See page 118-119).

No. 522 – Gear and pulley puller; spread range when used with 12.7 mm cap screws: 51 mm to 197 mm. Cap screws not included.

No. 7393 – Gear and pulley puller with standard 140 mm forcing screw, plus special 330 mm forcing screw. Includes two hex head cap screws, 3/8" -16 x 76 mm long. Spread range: 38 mm to 180 mm.

Multi-purpose puller set

This new assortment of pulling tools gives you a wide range of job versatility. You get a 2.2 kg slide hammer puller, hub puller, two sizes of Power Team Grip-O-Matic® jaw-type pullers, a bearing pulling attachment plus a cross-bar gear and pulley puller, all contained in a handy plastic storage case.

No. 1181 – Multi-purpose puller set. Wt., 11.4 kg.

Set No. 1181 consists of:

No. 1177 – Slide hammer puller with 2.2 kg hammer, 2-way and 3-way heads. Reversible: either two or three jaws may be used to handle both "inside" and "outside" pulling jobs.

No. 7208 – Hub puller. Includes a spare locknut which permits use with No. 1177 slide hammer.

No. 1023 – 2 ton combination 2- or 3-jaw Grip-O-Matic® puller. Has 86 mm max. reach, 121 mm max. spread.

No. 1027 – 5 ton combination 2- or 3-jaw Grip-O-Matic® puller. Has 140 mm max. reach, 178 mm max. spread.

No. 7393 – Bar-type gear and pulley puller with 140 mm long screw. Includes two hex head cap screws, 3/8" -16 x 76 mm long. Spread range: 38 mm to 108 mm.

No. 1122 – Bearing pulling attachment for use with No. 1027 and No. 7393 pullers. Has 51 mm max. spread, 3 mm min. spread.

Lock-on, jaw-type puller set

Components can be assembled to create several versatile puller versions. The puller head is turned to securely lock the jaws onto the part being removed. Both a 2-way and 3-way puller head are included, plus three long-reach and three short-reach puller jaws in a plastic storage box. Easily removes gears, bearings and other press-fitted parts. *Can be used for internal pulling tasks when used with a slide hammer.

No. 1182 – Jaw-type puller set. Wt., 3.1 kg.
